Dear Parents/Guardians,

I hope you are all well. I would just like to check that all families have access to their child/ren's Google Classroom login details. This was sent out before half term. This was a three-page letter detailing how to login to Google Classroom, and included your child's personal login information at the top.

If you require clarification of your child's login information please contact your child's class teacher directly via their class email addresses
